

Bio4Energy

Autumn Researchers' Meeting 2020

5 November 2020, kl. 9.00-11.00

[Zoom meeting](#), passcode: 763365

- 9.00 Welcome
Christoffer Boman, Leif Jönsson, Elisabeth Wetterlund
- 9.05 Update from the Strategy Group
Leif Jönsson
- Theme: Strategic collaboration within Bio4Energy**
- 9.20 Presentations from previous strategic projects
- Kristiina Oksman** (P5 Biopolymers and Biochemical Conversion Technologies)
Supercapacitors and high energy/density electrodes based on carbon nanofibers from lignin and biochar (2016-2017)
- Eleonora Borén & Christoffer Boman** (P7 Environment and Nutrient Recycling)
Valorization of pulp and paper mill ashes and sludge by a two-step treatment approach – A feasibility study (2019)
- Sacha Escamez** (P2 Feedstock)
Resolving the determinants of lignocellulose recalcitrance to bioconversion in situ at a micrometer scale with imaging techniques (2019-2020)
- Dimitris Athanassiadis** (P1 System Analysis and Bioeconomy)
Life Cycle Assessment Projects in Bio4Energy Context
- ~10.20 Short break
- 10.25 Parallel creative group discussions on opportunities for strategic collaborations
- 10.45 Short comments from each group
- 10.55 Concluding remarks from the programme managers
Christoffer Boman, Leif Jönsson, Elisabeth Wetterlund
- 11.00 Meeting closes

How was the project idea born?

How did we work?

What were the challenges and opportunities?

Take-away messages for coming strategic projects
